Prices subject to change

Oakland Audio-Visual Service, Inc. is proud to be of service to the Bay Area since 1976. Our rental counselors are available to assist you and to take your order or just answer questions from 8am-5:30pm Monday through Friday. We encourage advance orders to ensure that we have the items you want in stock and we are also available for last minute orders, which may be subject to labor fees.

<p><b><u>DELIVERY, PICK UP &amp; INSTALLATION</u></b> Our technicians carry portable digital radios with them to insure constant communication with our office, enabling us to keep you informed. Our fleet of trucks service the entire Bay Area several times daily; see below for added delivery charges.</p> <p><b>MINIMUM ORDER FOR PICK UP AT OAVS: \$25.00</b></p> <p><b>MINIMUM ORDER FOR DELIVERY: \$50.00</b> Add delivery and pick up charges below for your area. Convention Center/Trade Show set-up/removal	60.00 per man hour, 1hour min.*
* Additional union labor rates may apply depending on venue.	

# DATA EQUIPMENT

We rent many items to display your computer image; from desktop monitors for smaller groups to large screen projectors for larger presentations.

When ordering, tell us what type of computer you will be using, what size your audience will be, how dark the room you are using can get, and what resolution you wish to display. We require the computer that will be used to be available on delivery for testing purposes, otherwise we cannot guarantee that your computer will interface with our projector, and our rental charges will still apply.

VGA RESOLUTION	640 X 480
SVGA RESOLUTION	800 X 600
XGA RESOLUTION	1024 X 768
WORKSTATION	1280 X 1024

### HOW TO FIND AND CHANGE YOUR RESOLUTION

**WINDOWS 95/98/ME/2K/XP** - Start button >> Control Panel >> Double-click on DISPLAY. In the "Display Properties" box, click the Settings tab. The "screen resolution" or "screen area" drag bar is in the lower right or left half of the window depending on your version of Windows. Drag the dial to the right or left to increase or decrease your resolution. Press "Apply" then "OK." Your computer may ask if you wish to keep your changes.

**WINDOWS 3.1** From your desktop, click on the MAIN file. Then click on the WINDOWS SETUP. Go to OPTIONS and click on the arrow to the far right of the DISPLAY line, and choose a new video resolution. Then click on OK. You may need to restart your computer for the new resolution to take effect.

**MACINTOSH SYSTEM 8** Open the "Monitors and Sound" control panel. Click on the desired resolution. Close control panel.

# VIDEO EQUIPMENT

We offer many ways to display your video image; from video projectors for larger groups to video monitors for smaller ones. When ordering, please tell us what size your audience will be, how the room will be set up, how high the ceiling is and how dark the room can get. Video projection does require a certain amount of darkness to make the image visible. However, some of the brighter LCD projectors will work better in well-lit rooms. We will suggest a system that will work best for your event. Please bring your videotape with you when our technician sets up the equipment so that we may demonstrate how the projected image will look.

		AC Extension cord (per foot)	.10

# PROJECTION EQUIPMENT

We rent projectors and screens for events large and small. When ordering, please tell us what size your audience will be, how the room will be setup, how high the ceiling is and how dark the room can get. We will suggest the correct projection equipment and screen size for your event. Please bring all media you will be using when our technician sets up the equipment so that we may demonstrate how the projected image will look.
